**Dealer, Distributor,
and Sales Rep.
Inquiries
Welcome!**

**An exciting new concept in dry-erase technology!
Turns any smooth surface into a dry-erase board.**

- Works great with all dry-erase markers and erasers.
- Full self-stick backing and strips adhere to most smooth surfaces.
- Converts any wall or other smooth surface into a high quality, dry-erase board.
- All products apply easily and can be removed and reapplied as needed.
- Adheres to most clean, dry surfaces including walls, chalkboards, existing worn white boards and other surfaces where a dry-erase surface is needed.
- Low cost, high quality alternative to more expensive dry-erase products.
- Saves paper and the environment. Mark-it self-stick, dry-erase products are reusable.
- Works well as a projector surface.

Item 101 - 25" x 30" Dry Erase Presentation Easel Pad with 10 perforated self-stick sheets.
Each paper sheet has a 1" self-stick, adhesive strip across the top/back of each sheet for mounting on any clean, smooth surface.

- **Available in both coated paper and more durable polyester film, in both sheets and rolls.**
- **High margin/net profit potential from repeat sales of a consumable product.**
- **Excellent products for overall cost reduction and other budget conscious customers.**

Pressure sensitive, self-stick backing strips adhere to most smooth surfaces. Sheets can be applied, removed, reused and repositioned as needed.

Mark-it™ *Self-Stick, Dry-Erase Products*

Mark-it self-stick, dry-erase products from Troy School & Office Products are available in a variety sheet and roll sizes in both coated paper and polyester film. These innovative, self-stick, dry-erase products provide a high quality, low cost, long lasting alternative to higher priced traditional dry-erase board products. Mark-it self-stick, dry-erase products can turn any easel stand, wall, bulletin or

chalkboard into a high quality dry-erase surface. Both paper and film surfaces also double as a low cost projector surface. Mark-it dry-erase products are ideal for new installations or for resurfacing existing worn, stained or damaged whiteboards or chalkboards of all sizes. All Mark-it self-stick, dry-erase products are designed with removable pressure sensitive backing paper for ease of

application and positioning. All products can be easily installed and reinstalled by one person and require no special tools or installation experience. Both paper and film products can be removed and repositioned several times on most smooth surfaces.

So consider the low cost, high quality and versatile alternative of Mark-it self-stick, dry-erase products.

Paper products are available in both sheets and rolls, as well as converted easel pad products.
